Crafting
EXTRAORDINARY
WORKSPACES
FOR YOUR VISION

BRAND INTRODUCTION

A one-stop solution specialist for office furniture.

Sencoospace is a design-driven office furniture brand under Guangdong Shangku Space Furniture Industrial Co., Ltd., founded in 2017 and headquartered in Foshan, Guangdong — one of the world’s key centers for furniture manufacturing and trade.

Built on the philosophy of “creating better workspaces with greater efficiency,” Sencoospace provides one-stop office furniture solutions covering design, R&D, manufacturing, sales, and service. With a modern production base of approximately 30,000 square meters and more than 300 skilled employees, the company offers integrated manufacturing capabilities for panel furniture, upholstered furniture, and painted furniture. It has also obtained ISO 9001, ISO 14001, ISO 45001, and China Environmental Labelling certifications.

Guided by the principle of “Less is more,” Sencoospace combines minimalist aesthetics,

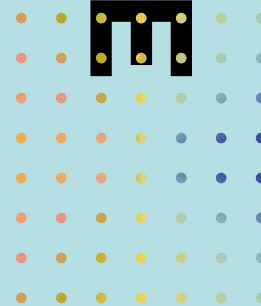

international design vision, and practical manufacturing expertise to create functional, elegant, and cost-effective workspace solutions. Founded by Leo Ray, a well-known designer in China’s office furniture industry with nearly 20 years of experience, the brand brings together a young and professional team with strong backgrounds in product design, space planning, brand strategy, and project delivery.

Today, Sencoospace products are widely used in offices, apartments, hotels, education, healthcare, and other commercial environments. With nearly 1,000 brand partners and franchise collaborations, as well as projects across China, the Middle East, Europe, the Americas, and other overseas markets, Sencoospace continues to deliver original, reliable, and high-value office furniture solutions for clients around the world.

BETTER
SPACES BY **SENCOOSPACE**

SENCOOSPACE

Brand founder

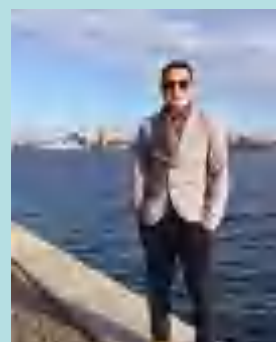

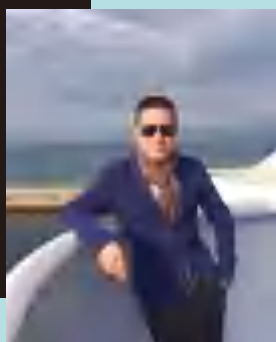

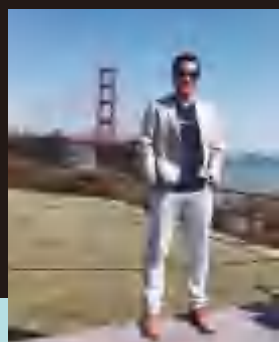

SENCOOSPACE

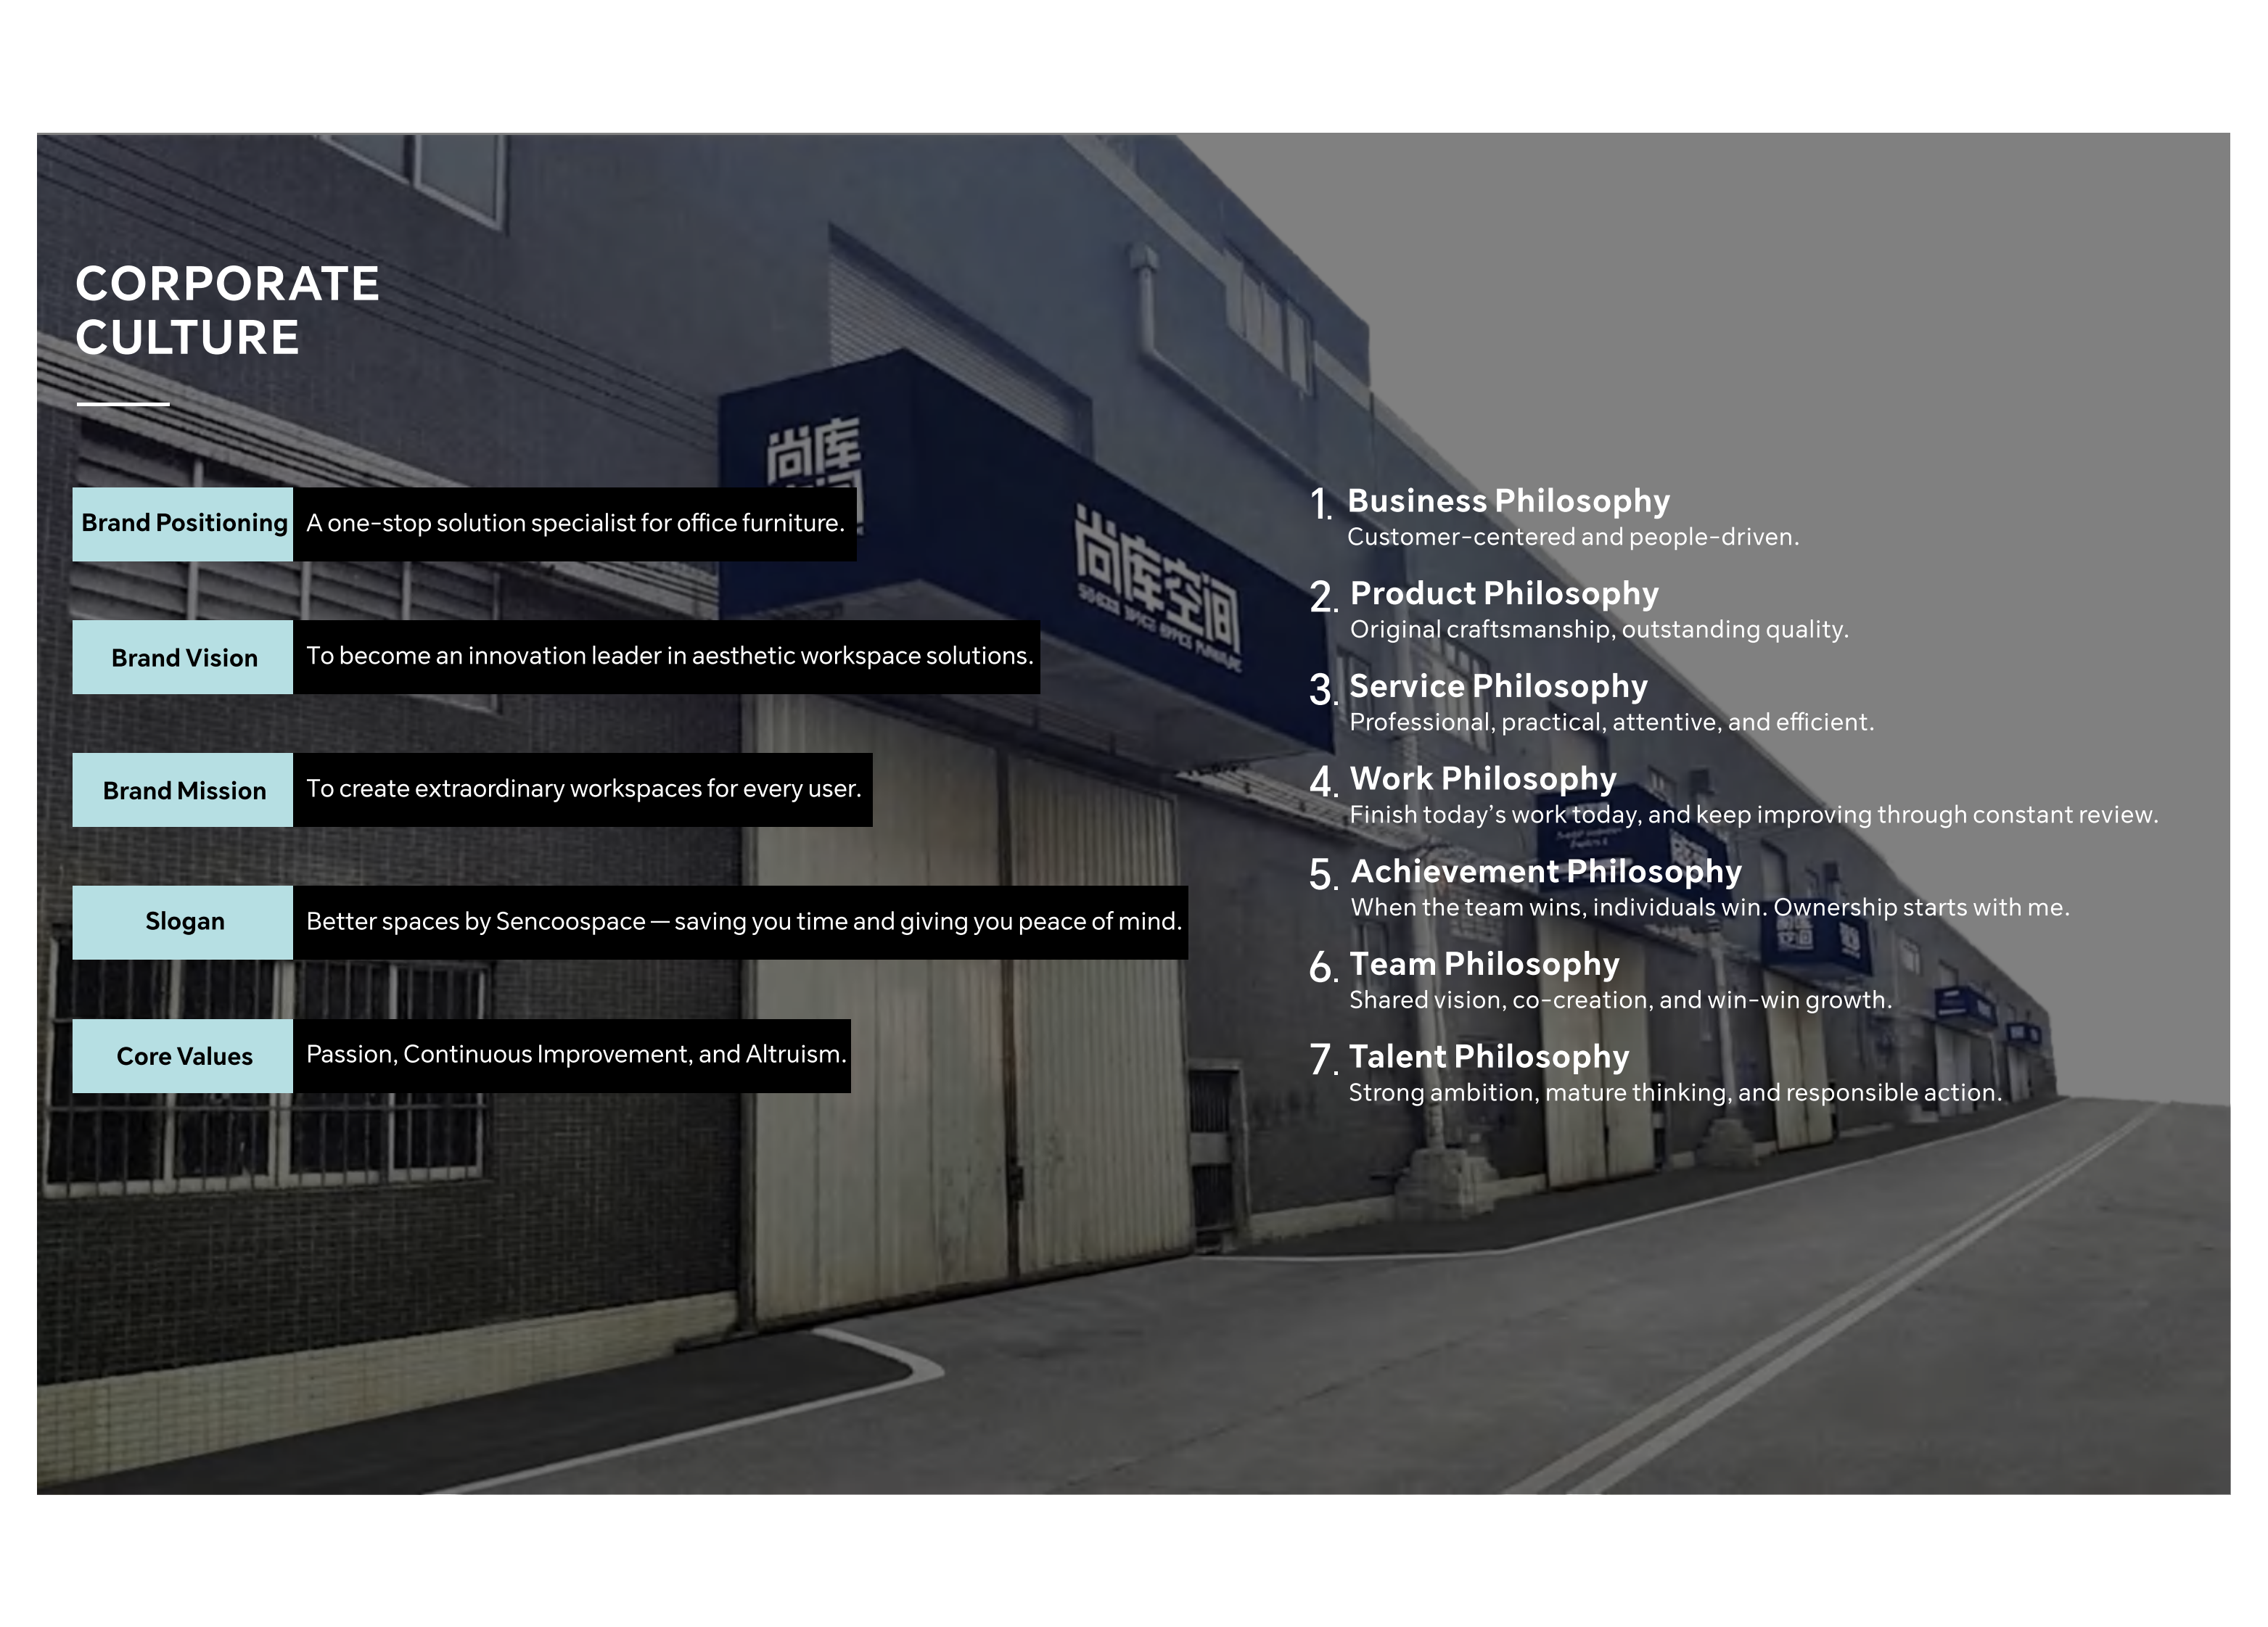

ACE FOUNDER & CHIEF DESIGNER ——— LEO RAY

Leo Ray, Founder and Chief Designer of Sencoospace, is a recognized designer in China's office furniture industry with nearly 20 years of hands-on experience in systematic office furniture design. His expertise spans product design, graphic design, spatial planning, brand strategy, and business operations, enabling him to create office furniture solutions that combine strong aesthetics, practical functionality, and market-driven product value.

With an international design perspective, Leo pursued advanced studies in art and design at the University of California, Berkeley, and has spent years studying and working across global markets. Earlier in his career, he served as a lead designer and engineer at the Hong Kong R&D Design Center of LOGIC, one of China's leading office furniture brands. He also held senior roles at GREENLINK, PHILIP DESIGN, a well-known domestic furniture group, an internet platform company, and a U.S. e-commerce brand.

In 2017, Leo founded Sencoospace in Foshan, China. Today, the company is led by a young, professional, and design-focused team, with core members from leading domestic and international brands. Under his leadership, Sencoospace continues to build original, modern, and highly competitive office furniture solutions for dealers, project clients, and workspace users worldwide.

CORPORATE CULTURE

Brand Positioning A one-stop solution specialist for office furniture.

Brand Vision To become an innovation leader in aesthetic workspace solutions.

Brand Mission To create extraordinary workspaces for every user.

Slogan Better spaces by Sencoospace — saving you time and giving you peace of mind.

Core Values Passion, Continuous Improvement, and Altruism.

1. Business Philosophy

Customer-centered and people-driven.

2. Product Philosophy

Original craftsmanship, outstanding quality.

3. Service Philosophy

Professional, practical, attentive, and efficient.

4. Work Philosophy

Finish today's work today, and keep improving through constant review.

5. Achievement Philosophy

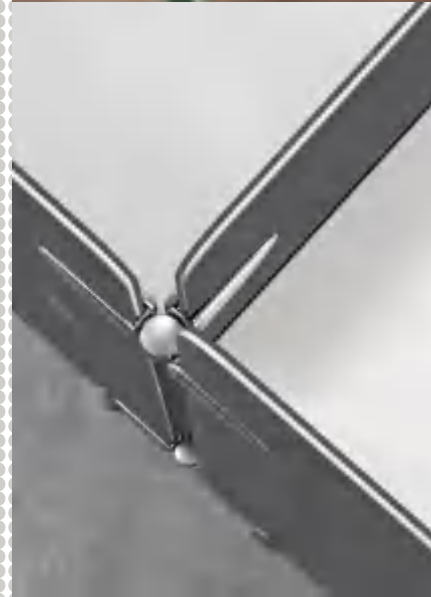

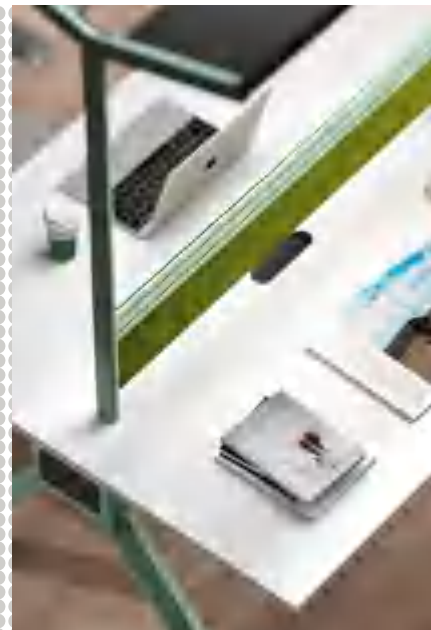

When the team wins, individuals win. Ownership starts with me.

6. Team Philosophy

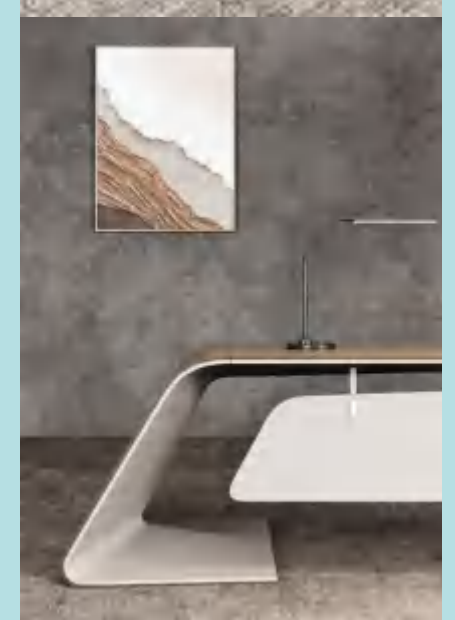

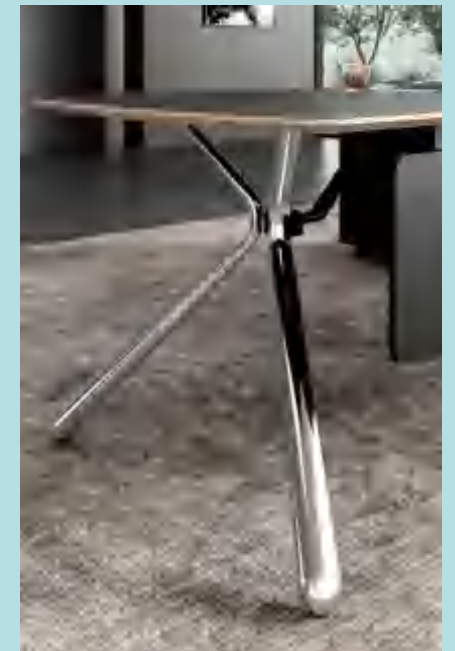

Shared vision, co-creation, and win-win growth.

7. Talent Philosophy

Strong ambition, mature thinking, and responsible action.

LOVAN | Executive Collection

Inspired by flowing curves and refined modern aesthetics, the LOVAN Executive Collection brings a sense of quiet movement to the workspace. Its softly rounded desktop edges create a comfortable and harmonious visual experience, while reflecting a thoughtful approach to human-centered design.

Blending art with furniture craftsmanship, LOVAN presents an executive workspace that feels elegant, composed, and naturally refined — designed for leaders who value both presence and comfort.

MASHA | Executive Collection

True prestige never needs to be loud. The MASHA Executive Collection is crafted with a refined high-gloss piano lacquer finish, bringing a polished sense of authority and elegance to modern executive workspaces.

Each surface is carefully finished through multiple fine processes, creating a mirror-like clarity that reflects the confidence, composure, and vision of its user. The smooth touch, flowing light, and refined detailing together express a balance of craftsmanship, comfort, and executive presence.

Designed for decision-makers, MASHA turns every moment of leadership into a more composed and distinguished experience.

EDO | Executive Lacquered Panel Collection

EDO is defined not only by form, but by balance. Crafted with refined panel finishing and lacquer techniques, the EDO Executive Collection speaks to the sophisticated taste of contemporary leaders.

Every surface is carefully polished and finished through multiple processes, creating a smooth, warm texture and a deep, composed color tone. Its subtle sheen conveys quiet luxury, while its well-balanced design reflects calm control and confident decision-making.

Designed for leaders who value both rationality and warmth, EDO creates an executive workspace with refined presence, comfort, and composure.

Walter

Stainless Steel Desk Collection

The Walter Stainless Steel Desk Collection is designed for leaders who value both flexibility and presence. With a height-adjustable structure, it allows users to move smoothly between sitting and standing, supporting a healthier and more comfortable way of working.

The desktop features an excimer 4H soft-touch surface with low reflectivity, an ultra-matte finish, anti-fingerprint performance, and a refined tactile feel. Minor surface scratches can also be repaired with heat treatment, helping the desk maintain its clean and elegant appearance over time.

An 8mm ultra-thin beveled edge reduces visual heaviness while preserving the solid, dignified character of an executive desk. The R50 rounded corner design adds an extra layer of safety and comfort, reflecting thoughtful attention to everyday use.

Simple office environment requirements for products are becoming increasingly fashionable, the birth of the future series to fashion simple modern office environment to a new aesthetic height, its elegant and exquisite appearance of fashion and exquisite shape combined with the trend of color elements of the mix to show a unique elegant temperament.

China's first two-color side handle, fully independent original design, color matching fashion, easy to use, break the conventional symmetry aesthetic, so that the office space add infinite possibilities.

Xspace is a design from the future. X is a mysterious code letter. Xspace is inspired by the mysterious X letter and the wings of an eagle. The legs of the table evolved from the minimalist shape of the X letter, and the legs of the table connecting pieces look like a pair of wings of an eagle, soaring, simple and smooth and rich in strong artistic beauty.

YAMI | Desk Collection

Inspired by the geometry of Egyptian pyramids, the YAMI Desk Collection adopts a distinctive triangular-cut structure, symbolizing wisdom, ambition, and the spirit of moving forward with purpose.

Its independently developed aluminum alloy frame is crafted with diamond-cutting techniques and supported by multiple patented design features. The frame is engineered to adapt to angled desk legs, while the innovative die-cast leg connector provides both stable support and integrated cable management.

With aluminum cable covers built into the inner side of the executive desk legs, wiring can be routed cleanly from the base. The under-desk cable channel replaces the traditional crossbeam structure, creating more organized internal wiring space and a cleaner visual appearance.

Minimal, precise, and highly functional, YAMI is designed to meet the needs of innovative modern enterprises.

Lighting customization

Custom models with built-in lighting for special lighting needs.

Patent innovation

Our self-developed aluminum alloy frame features diamond-cut craftsmanship and has been awarded multiple patents. The frame's leveling feet are designed to adapt to various angled leg columns, and our innovative die-cast connectors ensure stable support while enabling integrated cable management. The executive desk comes standard with aluminum profile cable covers on the inner side of each leg column, allowing cables to be routed from floor level. Beneath the desktop, a panel-style cable trough replaces traditional crossbeams, optimizing internal cable routing and maintaining a minimalist overall design—perfectly suited to the workspace needs of innovative enterprises.

Function integration

Equipped with bag hooks and a sliding small tray on the desktop screen. The aluminum desktop screen comes standard with black transparent acrylic. The under-desk panel-style cable trough not only ensures efficient cable management but also serves as desktop support. Combined with a high-performance cable management system and cable boxes, it delivers both practicality and aesthetics.

Hyper-Converged Functionality

Equipped with hyper-charge holders and a sliding desktop screen tray, the desk ensures all screen features are visible & convenient to use, while the integrated baseboard cable slot ensures efficient wire routing, doubles as desktop reinforcement, and combines with concealed cable management channels and junction boxes for functional elegance.

Inspiration tracing

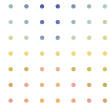

The form draws from the timeless geometry of the Egyptian pyramids. Its triangular silhouette speaks to the spirit of the striver — one who inherits wisdom, embraces challenge, and moves ever forward through the waves of change.

Module variation

The single-seat and double-seat units can be modularly expanded into multi-person workstations. Featuring a uniquely designed figure-eight shaped leg for the single-seat unit, the system flexibly adapts to different spaces and team sizes.

Nice | Steel-Wood Workstation Collection

The NICE Steel-Wood Workstation Collection is an integrated office solution designed to support flexible working and efficient space planning. By combining the best features of three proven desk systems, NICE offers a new level of adaptability for modern workplaces.

Built with interchangeable modular components, the system can be configured for different teams, work styles, and industries — from technology companies to financial institutions and beyond. Users can choose from a variety of screen options, including desktop screens, hanging screens, and horizontal screens, or select an open, screen-free layout for a more collaborative environment.

Screen materials include fabric, glass, and acrylic, with framed or frameless options available. Tackable and magnetic surfaces can also be selected to support different working needs.

The built-in power trough keeps the workstation clean and streamlined while making daily use more convenient. Its spacious cable management channel supports various power sockets for different regions, helping the system meet future technical and customization requirements.

For the growing demand for flexible and customized office solutions, NICE is a practical and future-ready answer.

GEEK | Desk Collection

Geek is more than a name — it is an attitude. It represents endless curiosity, the pursuit of excellence, and the courage to rethink the way people work.

The GEEK Desk Collection is designed for explorers, creators, and innovators who reshape the world through ideas. Breaking away from traditional office layouts, it uses modular design to redefine workspace order, while intelligent functional configurations respond to the demand for efficiency and flexibility.

Every detail is created to inspire. Every configuration is yours to define. GEEK is not just a desk — it is a workspace built for original thinking.

Kemi | Steel-Wood Desk Collection

The Kemi Steel-Wood Desk Collection is a refined expression of modern minimalism. Its angled steel legs and beveled desktop edges create a light, dynamic silhouette, giving the product a sense of vitality and subtle elegance.

With its cool grey tones and clean visual language, Kemi reflects a calm, contemporary attitude toward future work and living environments. Simple yet expressive, it brings a fresh balance of structure, style, and warmth to modern office spaces.

Umi | Quick-Assembly Partition Screen Series

The UMI Partition Screen Series introduces a new generation of workstation screens with an innovative connection structure and multiple national utility model patents.

As an industry-leading screen system, UMI features a rotatable, screw-free connection design, making installation faster, cleaner, and more flexible. It provides an efficient partition solution for modern workstations, helping offices achieve better space division, easier assembly, and a more refined visual appearance.

屏风板采用 12mm 高密度纤维板基材圆角斜边处理, 采用优质面料整体绷皮工艺处理, 安全舒适营造完美工作私密空间。

The screen board adopts 12mm high density fiberboard base material rounded beveled edge processing, adopts high-quality fabric overall palpation process processing, safe and comfortable to create a perfect private working space.

Vivo | Partition Screen Series

The Vivo Partition Screen Series is built on a standardized modular design concept, combining clean visual lines with a solid and durable structure. It is designed to meet the growing need for privacy in different workplace settings while helping offices make better and more efficient use of space.

With its modular structure and quick-install design, Vivo supports flexible office planning and easier on-site assembly. Its simple form, reliable construction, and low-carbon design approach make it a practical partition solution for modern work environments.
